It was truly special...

1

The 911 Targa – the world's first "safety cabriolet" – debuted at the IAA in 1965.

2

Its name is inspired by the Targa Florio endurance race in Sicily (Italy).

3

The car features a good 20 cm-wide roll bar and a removable roof section,

4

and later a panoramic rear window with heated glass replaces the rear soft top.
