Vehicle status

My Porsche displays the fuel level or charge status, the mileage, the location of the vehicle, the setting of the VTS tracking system, the chassis number, statistics on past journeys and upcoming maintenance.

Service

The My Porsche App always finds a nearby Porsche dealer and helps you with appointment bookings. Furthermore, customers get access to exclusive events and recommendations from Porsche.

My Porsche app

Remote services

With the My Porsche app, customers can lock or unlock their vehicle and park their vehicle remotely. Additionally, the air conditioning and auxiliary heating can be operated, and charging processes can be controlled or programmed in battery-powered vehicles and hybrids.

Wiki

Inexhaustible expertise about Porsche can be found in digital user manuals, supporting videos, detailed explanations of important functions, and interactive graphics.

Comprehensive networking

The My Porsche app connects existing accounts from streaming providers or calendars with the associated apps in the vehicle.

Simplified navigation

The My Porsche app guides Porsche owners to their vehicle, finds and saves points of interest, calculates navigation routes, and synchronizes all data between the smartphone and Porsche Communication Management (PCM) in the vehicle.

Security

In the My Porsche app customers can view if and when their vehicle's anti-theft alarm system has been triggered. It reports if the vehicle moves unexpectedly or drives faster than a preset speed. In an emergency, it can be used to report theft, damage, or a breakdown in a straightforward manner.

The app's range of functions may vary depending on the model, model year and country availability. The app is available for free in the Apple App Store and the Google Play Store. It is constantly being expanded and optimised.
